STATEWIDE CONSERVATION PERMITS:

Statewide Conservation Permits allows a permittee to hunt big game species on any open unit with archery equipment during the general archery season published in the big game proclamation for the unit beginning before September 1, and with any weapon from September 1 through December 31, except pronghorn moose from September 1 through November 15.

Turkey on any open unit from April 1 through May 31.

Bear on any open unit during the season for that unit.

Cougar on any open unit during the season for that unit including any harvest objective unit even if the unit has been closed by meeting its objective.

ANTELOPE ISLAND IS NOT AN OPEN UNIT FOR HUNTING ANY SPECIES OF WILDLIFE.

BOX ELDER, PILOT MOUNTAIN CLOSED FOR ELK AND PINE VALLEY, VIRGIN RIVER FOR DESERT BIGHORN SHEEP.

AREA CONSERVATION PERMITS:

Area Conservation Permits are issued for a specific unit or hunt area for a specific species, and may include an extended season, or legal weapon choice, or both beyond the general season.

Area Conservation permits issued for limited entry units are not valid on cooperative wildlife management units (CWMUs), and Area Conservation permits issued for general season hunt areas are not valid on CWMUs or limited entry units.

Area cougar permits will be handled differently in 2004. Permits are issued for a group of units roughly aligned with regional boundaries. Permits will be good on limited entry units until the season closes and on harvest objective units until the quota is reached.

USING A CONSERVATION PERMIT

Permit allows the recipient to take only the species for which the permit is issued. The recipient of a permit is subject to all of the provisions of Title 23, Wildlife Resources Code, and the rules and proclamations of the Wildlife Board for taking and pursuing wildlife.

Bonus points are not awarded or utilized. Any person who has obtained a permit is subject to all waiting periods as provided in R657-5, R657-6, R657-10 & R657-33.
